SUMMARY

Final-year Software Engineering & Cybersecurity student, currently training in AI & Machine Learning at Developers Institute. AI, Data and software-oriented profile with practical experience in web applications, dashboards, REST APIs, data analysis and impact-driven digital solutions. I aim to contribute to innovative projects for employability, guidance and digital transformation in Africa.

TECHNICAL SKILLS

Languages & Web: HTML, CSS, JavaScript, PHP, Python
Backend / APIs: Laravel, FastAPI, REST APIs
Data & AI: Pandas, NumPy, Matplotlib, Data Analysis, Data Visualization, ML basics, LLMs, AI tools
Other: Web security basics, computer networking fundamentals

Frontend: Bootstrap, Tailwind CSS, Responsive Web Design
Databases: MySQL, SQL, Supabase
Tools: Git, GitHub, VS Code, Postman, Thunder Client, Google Colab
Soft Skills: Analytical thinking, leadership, self-learning, teamwork, communication, project ownership

TECHNICAL PROJECTS

VenteClair - Web application for sales and credit management | Personal Project | June 2026

- Designed a web application to manage products, sales, credits, weekly reports and Sunday balance summaries.
- Built a dashboard with key indicators: total sales, paid amount, remaining amount, credits, stock and history.
- Integrated Supabase for authentication, cloud persistence and data management.

Novaris IA - Financial risk detection platform | AI/Data Project

- Designed an AI-oriented concept for risk analysis, fraud detection, dashboards and decision support.
- Structured modules around users, transactions, alerts, risk indicators and reporting.

RecoAI / Smart CV Africa - Recommendations and AI career support | Hackathon & AI Projects

- Explored recommendation systems based on preferences, behaviors and product similarity.
- Designed an AI-powered platform to help generate CVs, cover letters and personalized progression paths.

EXPERIENCE

Junior Full Stack Developer - VenteClair | Abidjan, Côte d'Ivoire | June 2026

- Developed a complete business solution, from user interface to database, addressing a real commercial tracking need.
- Improved user experience with a separate login page, responsive interface, item deletion and error handling.

AIPROMMER - Freelance Web Developer | Abidjan, Côte d'Ivoire | Jan. 2026 - Feb. 2026

- Developed the institutional website using HTML, CSS and JavaScript; contributed to deployment and basic SEO.

ISPA Polytechnic University - Ambassador Intern | Abidjan, Côte d'Ivoire | Jul. 2025 - Aug. 2025

- Supported student orientation and institutional communication activities; strengthened leadership and teamwork.

EDUCATION

- Expert AI & Machine Learning Training - Developers Institute | May 2026 - July 2026
- Licence in Software Engineering & Cybersecurity - ISPA Polytechnic University | 2023 - Present
- BTS in Computer Science / Application Development - ISPA Polytechnic University | 2023 - 2025 | Completed as an independent candidate; defense pending
- Scientific Baccalaureate, Series C - Lycée Municipal Gadié Pierre de Yopougon | 2023
